CSC Staffing

- Currently, CSC has over 900 federal employees and over 500 contract employees
- CSC is led by an executive team consisting of the Director, Deputy Director and Chief of Staff
- Organized into adjudicative, support, and specialized branches headed by Associate Center Directors
- Each branch has 2-3 sections managed by Section Chiefs
- Each section has approximately 30 to 50 Immigration Services Officers (ISOs)
- ISOs are organized in 5 to 8 teams and are led by first-line supervisors
- There are plans to expand the CSC workforce in the near future

Workload Transfers

- Service Centers have seen growth in workload. USCIS expects to continue to face an increase in the volume and complexity of the applications and petitions adjudicated by the Service Centers
- In an effort to maximize available capacity, some workloads have been transferred among the five Service Centers
- SCOPS and the Centers review and identify available capacity at each of the Service Centers and based on findings, redistribute certain workloads among the Service Centers, where current resources allow
- Additional workload transfers are planned to continue while USCIS considers longer-term strategies to address the growing workload

FY16 Service Center Workload Transfers
