Written comments and suggestions from the public and affected agencies should address one or more of the following four points:

(1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agencies estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Overview of This Information Collection

(1) *Type of Information Collection:* Extension of a currently approved information collection.

DEPARTMENT OF THE INTERIOR**Fish and Wildlife Service**

[FWS-R4-ES-2011-N031; 40120-1112-0000-F2]

Endangered and Threatened Wildlife and Plants; Receipt of Applications for Incidental Take Permits; Availability of Proposed Low-Effect Habitat Conservation Plan and Associated Documents; Indian River County, FL

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability; request for comment/information.

SUMMARY: We, the Fish and Wildlife Service (Service), announce the availability of incidental take permit (ITP) applications and a Habitat Conservation Plan (HCP). Johns Island Club, Incorporated, and the Church of God by Faith (applicants) request ITPs under the Endangered Species Act of 1973, as amended (Act). The applicants anticipate taking about 1.75 acres of Florida scrub-jay (*Aphelocoma coerulescens*) (scrub-jay) breeding, feeding, and sheltering habitat incidental to land preparation for the extension and paving of a road, the construction of a fellowship hall and storm water retention area, and the expansion and paving of a parking lot located in Indian River County, Florida (project). The permanent alteration of 1.75 acres is expected to result in the take of two families of scrub-jays. The applicants' HCP describes the minimization and mitigation measures proposed to address the effects of the project on the scrub-jay.

DATES: Written comments on the ITP applications and HCP should be sent to the South Florida Ecological Services Office (see **ADDRESSES**) and should be received on or before April 7, 2011.

ADDRESSES: You may request documents by e-mail, U.S. mail, or fax (see below). These documents are also available for public inspection by appointment during normal business hours at the office below. Send your comments or
